LIMITED PERIOD POWER SUPPLY

Our limited period electrical power is generated from renewable sources. It is a practical option, since it is based on the power supply schedule established by the organiser, and is automatically shut off overnight. An limited power power supply is the perfect solution for equipment that does not need to be powered around the clock.

WORKSITE POWER SUPPLY

This is what is called a "worksite power supply". What exactly is it? A worksite power supply gives you access to electricity before the official power supply date. This option, which can be a real advantage, is available at certain Viparis sites(1).

If you would like to have electrical power to work on your stand prior to the opening day, please ask us for a quote(2).

The same is true if you need electrical power to dismantle your equipment after the event closes(2). After electrical connections are installed at your stand, you will be invoiced for any repositioning.

(1) Available at Paris Expo Porte de Versailles, Paris Nord Villepinte and Paris Le Bourget.

(2) Available during the official setup and breakdown periods.
